"This was truly a race of ups and downs. Our No. 2 Anderson's Maple Syrup Camaro qualified in the top 10 and made massive gains near the end of Stage 1 to finish fourth. We were the fastest car on the track from lap 35 on and it showed. Unfortunately, our team had to battle adversity after blowing a front left tire immediately after pitting at the first stage break. That cost us a few spots, but we quickly rebounded to finish in the top 10.
